ABOUT US

Suntek Energy is proudly Australian owned company. We believe that our values, our processes and our culture of excellence allow us to over deliver on your expectations.

The founder of the entity has been always fascinated by renewable energy and very passionate about making difference in the world. Since 2005, the director of Suntek Energy have been working with Australia's top leading companies in energy and solar industry. And have gained vast experience and knowledge. Over the years have helped thousands of Australian families and businesses by giving them the right solution base on their energy need to maximise ROI for every dollar spent.

Suntek Energy's aim is to maximise your ROI, Quality components from around the world, distinct workmanship in all of our solar products. We are here to help you implement your solar projects with our personalised service and cutting edge technologies. Sit back, relax and know that you are in good hands.
